

PHISH ALERT

"How to report a phishing email using PHISH ALERT"

Reporting phishing emails received via Gmail

**You can report phishing emails directly on Gmail
using the PHISH ALERT button.**

KNOWBE4'S GMAIL PHISH ALERT BUTTON

- **Background of the Phishing Email Reporting Process Change**
 - Increase in phishing attacks and business email compromise (BEC) incidents
 - Rising number of reports requiring significant manual effort under the current workflow
 - Goal: Simplify the reporting process for malicious emails to reduce workload and improve reporting accuracy

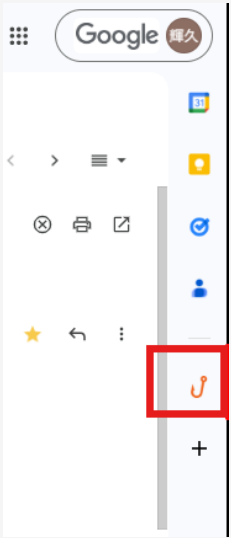

It will simplify the process for reporting malicious emails.

The reporting method has been simplified to reduce workload and improve reporting accuracy.

KNOWBE4'S GMAIL PHISH ALERT BUTTON

The Phish Alert hook icon has been added to the right-side panel of Gmail. (See image)

Please use this icon to report phishing emails from now on.

Thank you for your cooperation.

Please use the fishing hook shaped icon in the right side panel of Gmail to report phishing emails.

Important Notice: Opening the Phishing Email

The process of reporting via Phish Alert requires opening the relevant email.
You may wonder if it is safe to open it.

Currently, as reporting methods are limited, we have determined that
the risk of opening the email is acceptable. Thank you for your understanding.

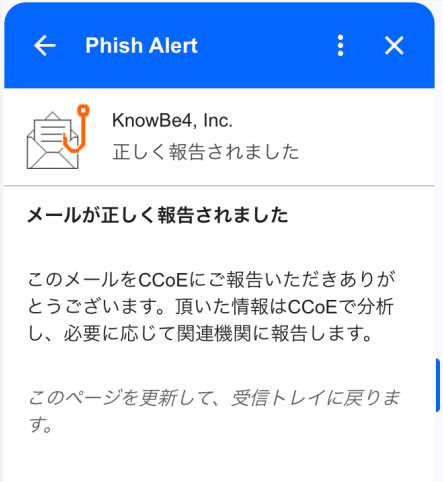

The reporting procedure will involve opening the relevant email.
Please be careful not to click on any links.

■ Please be extremely careful not to click on any links or attachments.

KNOWBE4'S GMAIL PHISH ALERT BUTTON

Once you click the Report button,
the process is complete.

This message confirms the report has been
submitted. Refresh the page to return to your inbox.

■ **If you use this method, the traditional
incident report form is no longer required.
(The old form will be closed soon.)**

KNOWBE4'S GMAIL PHISH ALERT BUTTON

Emails received from external sources will now have an "External" icon. Please pay special attention to emails with this icon.

- In Gmail, an "External" icon will appear on emails received from outside the company. (See image)
- Please be especially careful with emails containing this icon.
